

Omar Elzeiny, Field Application Engineer at dSPACE

**“Safe autonomous driving?  
Together we can make it happen.”**

Together with you, we are advancing autonomous driving with our holistic mindset and solutions that are trusted worldwide. We offer you an integrated environment for data-driven development, simulation, and validation – end-to-end from data logging to homologation supported by an extensive network of partners. Our range of solutions can be easily integrated into your infrastructure, helping you to accelerate development and reduce costs. Visit us at [dspace.com](https://www.dspace.com)

We offer one-stop Artificial Intelligence assisted solutions and services for Data-Driven Development and Validation.
