

YOUR PARTNER IN SIMULATION AND VALIDATION

dSPACE

Samar Aidrus, Development Engineer at dSPACE

**E-MOBILITY
START**

“My goal? Helping you switch to electric mobility even faster.”

Our development and test solutions are in use wherever clever minds are driving the dynamic change towards electromobility – from power generation, charging, battery and fuel cell technologies, to electric motors and power electronics. Get your e-innovations on the road faster with dSPACE – your partner in simulation and validation. **dspace.com**

We, at DynaFusion love to have your participation in our upcoming Webinar to be held on 24th November 2021. Topic: Introduction to the Smart Charging Solution from dSPACE. Register here for free (Scan the QR code)
